Summary of Qualifications

Experienced Software Engineer adept at developing responsive web and mobile applications to enhance user experiences and optimize performance. Proficient in diverse technologies, including ReactJS, GatsbyJS, VueJS, and Flutter, with a proven track record of managing multiple projects and adapting to evolving environments.

Education

Arizona State University

Bachelor of Science (B.S.), Software Engineering

Web Development using HTML, CSS, Bootstrap, JavaScript, & APIs

Online Degree 3.87 GPA

Online Certificate

Work Experience

Tyson Foods Inc.

Springdale, Arkansas

Developer Applications – Web and Mobile Applications

2022-2023

Collaborate with product owner, project managers, and other developers in understanding scope and requirements of project. Create and assign story points to project tasks on Jira, notify management and project managers of project progress, and research documentation for project development.

- Created dashboard that charts number of users for all Tyson applications versus cloud cost required to keep applications alive, reducing cloud costs by terminating apps not frequently used (Flutter).
- Created, read, updated, and deleted application information based on user input (Firebase Cloud Storage) improving user experience.
- Collaborated with UI/UX team for Sara Lee Deli Inspirations page, making it easier to display content to user (GatsbyJS, Bootstrap).
- Developed static websites for web and mobile screen sizes with reusable components and dynamic web pages utilizing Gatsby's built-in pre-rendering assets and fast page load speed to display Sara Lee Deli and Wunderbar Bologna content (GatsbyJS, GraphQL).
- Utilized GatsbyJS image components to convert images to WebP format optimizing image quality and improving Lighthouse Performance in First Contentful Paint, Speed Index, Largest Contentful Paint, Total Blocking Time, and Cumulative Layout Shift.

Tyson Foods Inc.

Springdale, Arkansas

Accounting Administrator

2016-2022

Processed high priority and high dollar invoices and provided support in other accounts payable areas to process payments. Cross-trained team members, contacted vendors to update payment information to ACH/EFT, and created spreadsheets to search for missing payments from vendor statements.

- Utilized Excel functions to automate manual processing of high priority monthly consolidated invoices, reducing manual processing by average of 55 minutes per month per invoice and saving \$1K per year.
- Designed easy to follow and information-filled training material using PowerPoint to cross train team members on high priority processes.
- Maintained USDA master spreadsheet used to file account information for over 500 USDA accounts.
- Achieved average of 150 high priority and high dollar invoices processed daily.

Shoe Carnival

Fayetteville, Arkansas

Assistant Store Manager

2014-2016

Oversaw cash management, inventory control, loss prevention, sales audit, and procedures. Supervised and trained 15 sales representatives on all store procedures, merchandise awareness, promotional items, and marketing campaigns. Provided high-level customer service and addressed all customer inquiries. Coordinated meetings with general manager and executive level leadership to discuss daily operations, employee performance, and store revenues.

- Selected as "Employee of the Month" for store record, 6 consecutive months, by focusing on growth and development in all products and customer service.
 - Mentored other sales representatives on product flow to inherit work ethic in pursuit of growth within the company.
-

Technical Skills

Software Development Lifecycle: Agile / Scrum, Waterfall

Web / Mobile Frameworks & Libraries: ReactJS, GatsbyJS, VueJS, Flutter, ThreeJS

Project Tracking & Version Control: GitHub, GitLab, Git, Taiga, Jira

Programming: Data Structures & Algorithms, JavaScript, Python, Java, C++, Dart, SQL, GraphQL, JSON, XML, Firebase

Design & Modeling Tools: Bootstrap, HTML5, CSS3, SCSS, Lucidchart, Autodesk Maya

Business Applications: SAP, Outlook, Teams, Excel, Word, PowerPoint

Professional Development

- Building Trust
- Effective Communication
- Unconscious Bias
- Cyber Security
- Productivity
- Performance Feedback
- Compliance & Ethics
- Diversity & Tolerance
